Surgical Skin & Utility Markers

Surgical Skin & Utility Markers

REF# 1451

Mini XL Prep Resistant Ink Skin Marker

The Mini XL is a specialized surgical skin marker designed to remain clearly visible even after aggressive preoperative prepping.

- **Prep Resistance:** Formulated to withstand commonly used preps such as Betadine® and CHG.
- **Tip Design:** Features a regular tip for consistent and reliable surgical site marking.
- **Clinical Settings:** Ideally suited for pre-op holding areas, operating rooms, and Ambulatory Surgery Centers (ASCs).
- **Application:** Perfect for signing the surgical site and executing other essential pre-op markings.

Quantities: 400 Markers/Per Box or 1000 Markers/Per Box

Surgical Skin & Utility Markers

REF# 1416

Fine Tip Waterproof Permanent Ink Marker

This full-size, wide-barrel marker provides a waterproof and permanent solution for critical medical labeling tasks.

- Very fine tip for writing on medication labels, plastic syringes, glass cups or stainless steel and other hard to write on surfaces.
- Smudge proof after 3 second dry time.
- Option to include in your label kits or purchase separate as sterile packs or non sterile bulk.

Quantities: 400 Markers/Per Box or 1000 Markers/Per Box

Surgical Skin & Utility Markers

REF# 1422

Dual Tip Surgical & Permanent Marker

A cost-effective, two-in-one design that combines a surgical skin marker with a permanent waterproof label marker.

- Features a Regular Tip Gentian Violet marker on one end and a Fine Tip Permanent Ink marker on the other.
- The permanent side is engineered not to smudge on synthetic label materials
- Ensures a clean, smudge-proof finish (3-second dry time)
- Can be included in label kits or purchased separately in sterile packs or non-sterile bulk.

Quantities: 400 Markers/Per Box or 1000 Markers/Per Box
