Additional Kit Components

Additional Kit Components

BASIN FLAGS

Basin Flags are specifically designed to eliminate the struggle of removing labels applied directly to medical containers.

- Peel the backing, apply the adhesive tab to your container, and place the medication label directly onto the flag
- Highly visible, easily removable
- Size: 2" x 1"
- Choose 2 or 4 Flags per package

Additional Kit Components

BASIN LABELS

- Apply Medication label to basin label, adhere to solution bowls & other basins or cups
- Size: 1" x 2"
- 4 Basin Labels per strip

Additional Kit Components

SPECIMEN LABELS

- Used to identify specimens for pathology
- Identify specimen tissue and location
- Complete label and adhere to container
- Size: 1.6" x 2"
- 2 or 4 Specimen Labels per package

Additional Kit Components

STOP TENT: SURGICAL TIME OUT PROCEDURE

- Add the S.T.O.P Tent to your label kits.
- A pre-incision checklist to help comply with your Time Out Procedure
- Place over top of scalpels as a reminder that incision can not be made until the S.T.O.P. Tent is completed

PatientSafety@pharmatags.com

- Add the TIME OUT Card to your label kits.
- A pre-incision checklist to help comply with your Time Out Procedure.
- Place over top of scalpels as a reminder that incision can not be made until the S.T.O.P. Tent is completed.

Surgical Skin & Utility Markers

Surgical Skin & Utility Markers

REF# 1451

Mini XL Prep Resistant Ink Skin Marker

The Mini XL is a specialized surgical skin marker designed to remain clearly visible even after aggressive preoperative prepping.

- **Prep Resistance:** Formulated to withstand commonly used preps such as Betadine® and CHG.
- **Tip Design:** Features a regular tip for consistent and reliable surgical site marking.
- **Clinical Settings:** Ideally suited for pre-op holding areas, operating rooms, and Ambulatory Surgery Centers (ASCs).
- **Application:** Perfect for signing the surgical site and executing other essential pre-op markings.

Quantities: 400 Markers/Per Box or 1000 Markers/Per Box

Surgical Skin & Utility Markers

REF# 1416

Fine Tip Waterproof Permanent Ink Marker

This full-size, wide-barrel marker provides a waterproof and permanent solution for critical medical labeling tasks.

- Very fine tip for writing on medication labels, plastic syringes, glass cups or stainless steel and other hard to write on surfaces.
- Smudge proof after 3 second dry time.
- Option to include in your label kits or purchase separate as sterile packs or non sterile bulk.

Quantities: 400 Markers/Per Box or 1000 Markers/Per Box

Surgical Skin & Utility Markers

REF# 1422

Dual Tip Surgical & Permanent Marker

A cost-effective, two-in-one design that combines a surgical skin marker with a permanent waterproof label marker.

- Features a Regular Tip Gentian Violet marker on one end and a Fine Tip Permanent Ink marker on the other.
- The permanent side is engineered not to smudge on synthetic label materials
- Ensures a clean, smudge-proof finish (3-second dry time)
- Can be included in label kits or purchased separately in sterile packs or non-sterile bulk.

Quantities: 400 Markers/Per Box or 1000 Markers/Per Box
